A word from the Joint Director

RACHIT MANAS
Joint Director

Dear Parents

Greetings of the day.

It's been a year and half since Brightland School came into existence and by the grace of God Almighty we have progressed in all spheres in terms of the onroll as well as our infrastructure and other facilities. Children at our school are at a tender age especially because at present our school caters to children aged four years to 13 This is an age we can mould them the way we desire. I feel we are we are lucky to be a part of child's journey of life at his stage of his when we can make them a worthy part of the society with material as well as holistic education. Our sincere endeavour is to mould them into a person who is not just successful but also a person who contributes to society, help the needy and work in team rather than being self centered at our institution Our respected Prime Minister Shri Narendra Modi Ji is indeed doing great work by his views and thought to change the image of India not just in the eyes of others but in the eyes of its fellow citizen as well. One such programme is Swatch Bharat. We at Brightland also understand the importance of Swatchta and have been telling about it to our students. We also organised a Swatch Bharat campaign by cleaning the surrounding of our school premises. Brightland organized Inter School Taekwondo Championship in which many schools participated. Participants were given refreshments and various food items in canteen as well, wrappers and disposals were thrown here and there. We feel proud to tell that students of Brightland voluntarily took permission from the management to clean the field themselves. They cleaned the entire ground in mere 5 minutes all by themselves. This should make us proud that each and every child from class 1 to class 8 did understand the importance of cleanliness and are willing to do so.

Here at Brightland we teach simple but uncommon things to our children like Thanking everyone who helps, saying sorry when at fault, throwing rubbish in the bins, doing work in team by assigning groups, respecting elders and many such things which seem common but actually are not as in our city of "Tehzeeb" such things are fading away.

Dear partns I hope that you can find such changes in your child and we will continue with our efforts. We want that when our children go out in this world they walk with confidence which they gain through number of activities, competitions and the clubs organized here at Brightland. At this note i would say that please stay connected with us for the day to day development of your child as this is his or her nurturing stage, Try to be attend as many programmes you are invited at. Your suggestions and ideas are always welcome. You can write to us and post your letter here in the schooln suggestion's box or can even email us because we feel both the home and school together can make a child a worthy student of the school but a worthy citizen of the nation.

Thanking you

Rachit Manas

Joint Director

Story: HARD WORK-KEY TO A GOLD MINE

Once upon a time there was a very hard-working farmer. He had developed a grapery that used to give a rich crop of grapes every year. He had three sons but none of them bothered to help their father

in his work. They were very easy-going kind of people. So, the farmer was very worried about their future. One day, the farmer fell ill as of old age. He called his son and said, "Dear sons! I doubt my end is near and before dying I want to tell you that, in my grapery, there lies a hidden treasure. Dig it out after my death." Saying this, the old farmer died. After performing the last rituals of their father, the sons began digging the vine-yard. They dug every inch of it but found nothing. But the digging led to such a rich crop as had never been there before even when their father was alive.

So, the sons came to know what their father meant by hidden treasure.
